

Bronze Division Game - Under the Lights (Rich Entlich)

On March 10th, the Bronze Division played a night game. The Legends played The Relics with players from The Elders and The Classics rounding out the two teams. Mike Paskevich from The Legends organized the game and fun was had by all. The Bronze Division hopes to make this an annual event. Several players told me they had a nap this afternoon so they would be ready for the night game. When you have been around for about 8 decades, it was probably a wise thing to do.
