Men's Senior Softball Headed for Home

The Englewood Men's Senior Softball league entered the final weeks of the 2022 Winter season, with tight races in the Gold and Silver division and the Bronze division Relics is undefeated with 13 wins. The Bronze division has become very popular among the players with the average age of 80 and has doubled in size in just its third year of play. In the Gold and Silver divisions, the races for first place are much tighter, with Key Agency tied with the Englewood Moose Lodge, each with a record of 13 wins, 3 losses. In the Silver division, Caddy Carts – Placida Pearl holds a two-game lead over Xpertech Auto Service. Mark Johnson, league commissioner, states, "We had the largest draft ever back in January for new players. The growth in the Englewood area means more men are looking for something other than or in addition to golf, and senior softball fits the bill." Open to men age 60 and older.
